HiLife CMT Kit (Masticura California Mastitis Test)

Detect mastitis early · Protect your dairy profit

The HiLife CMT Kit (Masticura California Mastitis Test) helps you detect udder infections (mastitis) instantly — right on your farm. Early detection means faster treatment, less milk loss, and a healthier herd. Includes the CMT reagent bottle and a 4-cup paddle so you can test all 4 teats of a cow in one go. Simple, affordable and trusted by professional dairy farmers.
