SILAGE & FEED

HiLife Corn Silage

Premium high-energy corn silage — Next Level Farming

Our flagship HiLife Corn Silage is made from fresh maize harvested at the optimal milk stage, chopped fine, scientifically fermented and vacuum-packed in air-tight bales. Rich in energy and easily digestible carbohydrates, it improves rumen health, boosts milk yield and keeps cows healthy year-round.

Specifications

Protein	8-10%
Dry Matter	30-35%
