PRODUCT SPECIFICATION SHEET

MACHINE ACCESSORIES

MILKING MACHINE LINER

High-quality, durable, and easy-to-clean milking machine liner for optimal milk production and hygiene.

The milking machine liner is a critical component of the milking system, designed to ensure the highest quality of milk. It is made from premium-grade materials that are resistant to wear, tear, and contamination. The liner is easy to install and remove, and it can be cleaned thoroughly to maintain hygiene. It is compatible with all major milking machine models and is available in various sizes to fit different types of milking equipment.
