HiLife Mono-Block Milking Machine (Starter)

Compact starter model · 150 RPM · 0.5–0.75 HP

The HiLife Mono-Block Milking Machine is our compact and affordable starter model — perfect for small farms with 2–10 cows. A powerful mono-block motor with a stable vacuum system delivers consistent suction, smooth operation and long-lasting performance. Soft suction mimics natural calf feeding — gentle and safe for animals. Portable and easy to move between stalls.
